Case No. AP-2007-152

Applicant seeks a certificate of authority to transport passengers in irregular route operations between points in the Metropolitan District, restricted to transportation in vehicles with a seating capacity of less than 16 persons only, including the driver. The application is unopposed.

I. REOPENING PROCEEDING

By letter dated August 15, 2007, applicant was directed to publish notice of this application in a newspaper of general circulation in the Metropolitan District no later than August 29, 2007. In addition, applicant was directed to file an affidavit of publication from the newspaper and proof of the other passenger carrier authority indicated in the application no later than September 12, 2007. As of September 27, applicant had yet to file proof of other authority. Accordingly, this application was dismissed without prejudice that day.¹

Applicant thereafter filed proof of timely publication and a statement explaining that applicant does not have any state authority and that applicant erroneously checked "State authority" under the "Other Authority" section of the application based on a prior misunderstanding of what was meant by "State authority." For good cause shown, this proceeding shall be reopened under Commission Rule No 26.²

II. DECISION

The Compact, Title II, Article XI, Section 7(a), authorizes the Commission to issue a certificate of authority if it finds that the proposed transportation is consistent with the public interest and that the applicant is fit, willing, and able to perform the proposed transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.

¹ See Order No. 10,783 (Sept. 27, 2007).

Applicant proposes commencing operations with one van.
Applicant proposes operating under a tariff containing charter rates, rates for mileage and/or hourly priced transportation, individual and/or group sightseeing rates, airport shuttle rates, rates for Medicaid transportation, and rates for transportation under contracts with government agencies and private entities.

Applicant verifies that: (1) applicant owns or leases, or has the means to acquire through ownership or lease, one or more motor vehicles meeting the Commission's safety requirements and suitable for the transportation proposed in this application; (2) applicant owns, or has the means to acquire, a motor vehicle liability insurance policy that provides the minimum amount of coverage required by Commission regulations; and (3) applicant has access to, is familiar with and will comply with the Compact, the Commission's rules, regulations and orders, and Federal Motor Carrier Safety Regulations as they pertain to transportation of passengers for hire.

Based on the evidence in this record, the Commission finds that the proposed transportation is consistent with the public interest and that applicant is fit, willing, and able to perform the proposed transportation properly, conform to the provisions of the Compact, and conform to the rules, regulations, and requirements of the Commission.
